Capability Statement

Core Competencies

Freedom Yurt Structures LLC manufactures complete wooden yurt kits to provide clients such as the Forest Service, State & National Parks Services, and other government agencies with affordable, high-quality, comfortable, and durable lodging solutions for staff or visitors alike.

Lodging Solutions

- Complete kit with step-by-step assembly - go from kit to Yurt Cabin with 3-4 people in 3-5 days
- Robust design: high snow loads and 120MPH wind rating
- All-season comfort and house-like durability
- Security from the bolt-together design and locking doors
- Make more campground revenue with this unique and high-quality structure that garners higher rental & occupancy rates year-round

Differentiators

Freedom Yurt Cabins have many unique, high-quality features that come standard with each kit:

- Integrated Base System
- Insulated walls, door, and roof (floor insulation optional)
- Low-E, double-pane glass windows
- Infinite custom color combinations
- Durable construction with LP SmartSide® wall panels, DuroLast® vinyl roof cover, and Sunbrella® valance and awning fabrics
- Eco-friendly and energy-efficient

Performance History

Prime contractor responsible for supplying 4 Yurt Cabins to the U.S. Forest Service at Spotted Bear Ranger Station in Montana that serve as durable, all-season accommodations for the rangers.
